

JOLONG ◆◆ CRYSTAL CLEAR TRANSPARENCY

With lower iron content, ultraclear glass offers over 91.5% light transmission, making it the perfect choice for applications that need exceptional clarity.

JOLONG ◆◆ PURE, TRUE-LIFE COLOUR

regular glass
which has a greenish tint due to iron

ultraclear glass
near colorless, more clear and vibrant

JOLONG ◆◆ STRONGER & MORE DURABLE

Specifically processed for higher strength and impact resistance, ultraclear glass outperforms standard glass in toughness.

HIGH STRENGTH

ENHANCED SAFETY

LOWER BREAKAGE

★
Easy to break, fall to the ground, dangerous and difficult to clean

★★★★★
With fewer impurities, lower risk of spontaneous breakage, safer and more reliable

JOLONG ◆◆ UV PROTECTION

Designed to effectively block UV rays, it helps protect indoor furnishings from fading and sun damage.

JOLONG ◆◆ EASY TO WORK WITH

laser cutting

polishing

drilling

Ultraclear glass is highly durable during processing, making it ideal for cutting, polishing, and drilling with a higher success rate.
